

HELP FILE

Welcome to the **Hidden Objects Collection Help File**.

This help file contains instructions for the following games:

- Legend of Tahiti Pearls
- Mystery of Unicorn Castle
- Paige's Scrapbook Adventure

Click on the game title on the left to jump to the instructions.

LEGEND OF TAHITI PEARLS

Legend of Tahiti Pearls is a hidden object game based on the legend of Princess Papeeth and the hidden pearls. Find hidden items and solve puzzles to unravel the legend of the pearls.

How to Play

The game story is driven through various travel locations connected by a location map feature. There are 50 missions that take place in underwater reefs, but most occur on dry land. Caves, island restaurant, and shops.

Your task is to locate all the items on a given list. Listed items must be located in traditional object-hunting style. Simply locate the item and "click it" to remove it from the current scene. When all items are collected, you advance to the next mission.

If you get stuck, click HINT at the bottom of the screen. You can also earn an extra hint in each level by finding 4 different colored pearls hidden with the environment.

MYSTERY OF UNICORN CASTLE

Uncover the mystery of Jane's family castle, haunted by ghosts. Discover hidden objects as you explore the many curious rooms in this sprawling castle.

Game Objective

Explore many colorful rooms in the castle to uncover hidden objects. Some will lead you to a choice of rooms to discover next.

Your task is to locate all the items on a given list. Listed items can be uncovered in five different ways throughout the game:

- √ Standard Hidden Object Item List
- √ Item Shape List
- √ Groups of Items
- √ Spot the hidden difference between similar pictures
- √ Find items that do not belong.

How to Play

Start the game by selecting a room to explore. Available rooms will be highlighted in the mansion background.

You can discover hidden objects in a variety of ways depending on the level and room you are in. Whatever the manner of discovery, simply locate the item and "click it" to remove it from the current scene. When all items are collected, you continue to the next room.

Some items can be hidden within furniture. Hover your mouse over a piece of furniture and if there is an item hidden there, your cursor will change. Click to open. You will need to solve a puzzle to unlock the furniture.

If you get stuck, click HINT at the bottom of the screen.

Be careful when you click items, as too many incorrect clicks will release a ghost from the upper left corner. If all ghosts are released, you'll have to start the level over.

PAIGE'S SCRAPBOOK ADVENTURE

Help Paige search through her scrapbook store to help find the perfect items to complete scrapbook orders for her customers. Then, create unique pages using your own design skills to earn extra cash.

Game Objective

Scrapbook Paige is an addictive “hidden object” game with 17 environments to explore and 15 levels of play.

After searching the many themed areas of the shop for the list of items to assist Paige with her customers, the player is given the chance to try out their scrapbooking skills. Creativity is key to earning extra cash when designing scrapbook pages for customers. “Speed Rounds” offer an exciting challenge as you try to complete rush orders. The game features a gallery section for viewing completed scrapbooking pages.

How to Play

Start the game by selecting an area to explore. Move your cursor around highlighted areas to see their names. You can click on them for a closer look.

In each area, you'll see a list of items to find and you must find all listed items to complete that area and move to the next.

Once all areas are done, you can move on to creating your own scrapbook page.

Use the magnifying glass to zoom in and get a closer look at items. You can quickly click the magnifier by clicking your right mouse button over an area.

If you get stuck on a particular item, just click on its name in the list, then click Hint. Hints are unlimited.

If you see a RIDDLE item in the list, click on it to see the riddle to solve. Close the riddle by clicking on the X.

SUPPORT INFORMATION

System Requirements

1.0Ghz Pentium 3 or better
Windows® XP/Vista/ 7
512MB RAM or higher
100MB free hard drive space
DirectX compatible video and sound cards
CD-Rom / Mouse / Keyboard
1024x768 minimum screen resolution

Installing Hidden Objects Collection on your PC

1. Insert the Hidden Objects Collection CD into your CD-ROM drive
2. If your computer is configured to detect a newly inserted CD, the Autorun menu will appear. If the Autorun menu does not appear after a few moments, click on the Start button, then select Run, and type D:\setup.exe (where D is the letter of your CD-ROM drive). If you are not sure of your CD-ROM drive's letter, double-click on the "My Computer" icon.
3. Click on the Install option, and follow the onscreen instructions for installation and setup.
4. Upon successful completion of the install, you can launch the program either from the Emerald Quest icon on your desktop OR by going to Start/Programs/On Hand Software/Hidden Objects Collection.

Customer Support

The quickest way to find an answer to your question is to click on this link:

<http://www.onhandsoftware.com/Support2.html>

This will take you immediately to the On Hand Software support site where we have posted the most frequently asked questions (FAQ's) and help files. There are also some patches to programs that you can download. In a minute or two you can often find the answer you are seeking.

However if you don't find an answer to your specific question there, we have also included a Support Form so that you can tell us which operating system and computer you are using, as well as including your question.

This form provides us with a more complete picture of the technical specs (computer brand, operating system) that we need to analyze and respond to your question. You'll find the form at the bottom of the support page.

We hope that you will quickly and easily find the information that you need on the support site or by using the product form.

REPORTING BUGS

If you find a bug in our software, it would be helpful if you reported the bug to us via email to info@onhandsoftware.com

To report a bug, please email us with BUG REPORT in the subject line. Please include the following information in your email:

- What operating system you are using
- The software name and version # from the CD (ie PC103-01)
- The error message
- A brief description of what you were doing when the error appeared (ie did it happen upon launching of the game, or on a specific game level)
- Your name and email address so we can contact you when the bug is fixed.

When reporting bugs, detailed emails are necessary so we have a written record of the information our programmers will need to fix the problem.
